

Medication at School Requirements

According to Ed. Code 49423 “any pupil who is required to take, during the regular school day, medication prescribed for him or her by a physician and surgeon or ordered for him or her by a physician assistant practicing in compliance with Chapter 7.7 (commencing with Section 3500) of Division 2 of the Business and Professions Code, may be assisted by the school nurse or other designated school personnel or may carry and self-administer prescription auto-injectable epinephrine if the school district receives the appropriate written statements identified in subdivision (b).

(b) (1) In order for a pupil to be assisted by a school nurse or other designated school personnel pursuant to subdivision (a), the school district shall obtain both a written statement from the physician and surgeon or physician assistant detailing the name of the medication, method, amount, and time schedules by which the medication is to be taken and a written statement from the parent, foster parent, or guardian of the pupil indicating the desire that the school district assist the pupil in the matters set forth in the statement of the physician and surgeon or physician assistant.”

This applies to all medication, prescription, over the counter, herbal supplements, topical like Neosporin, eye drops, nose sprays, ear drops, cough drops, anti-itch cream, everything.

For Epi-Pens we need the following according to Ed. Code 49423

“(2) In order for a pupil to carry and self-administer prescription auto-injectable epinephrine pursuant to subdivision (a), the school district shall obtain both a written statement from the physician and surgeon or physician assistant detailing the name of the medication, method, amount, and time schedules by which the medication is to be taken, and confirming that the pupil is able to self-administer auto-injectable epinephrine, and a written statement from the parent, foster parent, or guardian of the pupil consenting to the self-administration, providing a release for the school nurse or other designated school personnel to consult with the health care provider of the pupil regarding any questions that may arise with regard to the medication, and releasing the school district and school personnel from civil liability if the self-administering pupil suffers an adverse reaction as a result of self-administering medication pursuant to this paragraph.

(3) The written statements specified in this subdivision shall be provided at least annually and more frequently if the medication, dosage, frequency of administration, or reason for administration changes.

(c) A pupil may be subject to disciplinary action pursuant to Section 48900 if that pupil uses auto-injectable epinephrine in a manner other than as prescribed.”

For asthma inhalers we need the following according to Ed. Code 49423.1

“(2) In order for a pupil to carry and self-administer prescription inhaled asthma medication pursuant to subdivision (a), the school district shall obtain both a written statement from the physician or surgeon detailing the name of the medication, method, amount, and time schedules by which the medication is to be taken, and confirming that the pupil is able to self-administer inhaled asthma medication, and a written statement from the parent, foster parent, or guardian of the pupil consenting to the self-administration, providing a release for the school nurse or other designated school personnel to consult with the health care provider of the pupil regarding any questions that may arise with regard to the medication, and releasing the school district and school personnel from civil liability if the self-administering pupil suffers an adverse reaction by taking medication pursuant to this section.

(3) The written statements specified in this subdivision shall be provided at least annually and more frequently if the medication, dosage, frequency of administration, or reason for administration changes.(c) A pupil may be subject to disciplinary action pursuant to Section 48900 if that pupil uses inhaled asthma medication in a manner other than as prescribed.”
